SITUATION SUMMARY

Highway Incident, Vegetation Fire, Riverside County

Location: ¼ mile east of Highway 71, 1.5 miles north of Highway 91 in the Prado Basin Area of Riverside County.

Jurisdiction: SRA

Start Date/Time: 04/18/2015 at 1812 hours

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 04/22/15 at 0621 hours:

- 1049 acres, 85% contained
- Expected Containment: 04/24/15
- No expected threat – mop up
- 5 OES engines and 1 OES Incident Support Unit assigned. Expected to be released today.
- A Cal OES Fire Branch Assistant Chief responded to the incident
- A Fire Management Assistance Grant (FMAG) has been submitted to Cal OES and has been placed on hold

Health and Medical

- South Coast Air Quality Management District on 4/19/15 issued a **Smoke Advisory** for the Norco/Corona area and the San Bernardino Valley. Current air quality measurements are mostly in the Moderate category throughout the Inland Empire and the remainder of the Basin, but localized areas may reach the **Unhealthy for Sensitive Groups** level, or higher, at times, depending on winds and containment of the fire.

There are no requests for assistance or unmet needs

Cal OES Duty Officers are monitoring the situation and will provide updates as they become available.

Weather of Concern

- Shower and thunderstorm chances will continue through the end of the week with the highest concentration of storms expected to be over the Sierras during the afternoon and evening hours.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Gusty winds along the coast will persist with low clouds remaining along the coast. A high pressure ridge will build across the Region tonight.

Medford Weather:

The most unstable air mass will be confined south in Eastern Shasta and Lassen Counties, but by this afternoon southerly flow could spread the unstable air north into Modoc County. Isolated thunderstorms are in the forecast for Modoc County. The main upper level trough is forecast to sweep across the area Wednesday night with the air mass stabilizing overnight.

Reno Weather:

The overall pattern will remain active into this weekend with chances of showers and thunderstorms each day through Saturday. Drier westerly flow returns by the beginning of next week decreasing the potential for showers. After a cool period, temperatures warm above seasonal averages by the middle of next week.

San Francisco Weather:

A broad upper level trough over much of the West Coast will result in seasonably cool temperatures and potential for unsettled weather over the Region through Saturday. Dry weather and warming temperatures return by Sunday as a ridge of high pressure builds over the Region through early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

The threat of afternoon and evening showers and thunderstorms, mainly over the mountains, will continue through the week.

Hanford Weather:

A weak weather system will continue moving through the region with chances of thunderstorms over the Sierra Nevada and Tehachapi Mountains today. A thunderstorm or two may drift into the San Joaquin valley this afternoon and evening. Another low pressure system will move south along the coast through the end of the week. This movement will increase the threat of showers and thunderstorms for the entire central California interior especially Thursday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Low pressure will continue to bring isolated showers and thunderstorms to mainly the mountains each afternoon and evening through Friday. Temperatures will remain below normal through the end of the week. High pressure will begin building in over the weekend for a warming trend through early next week.

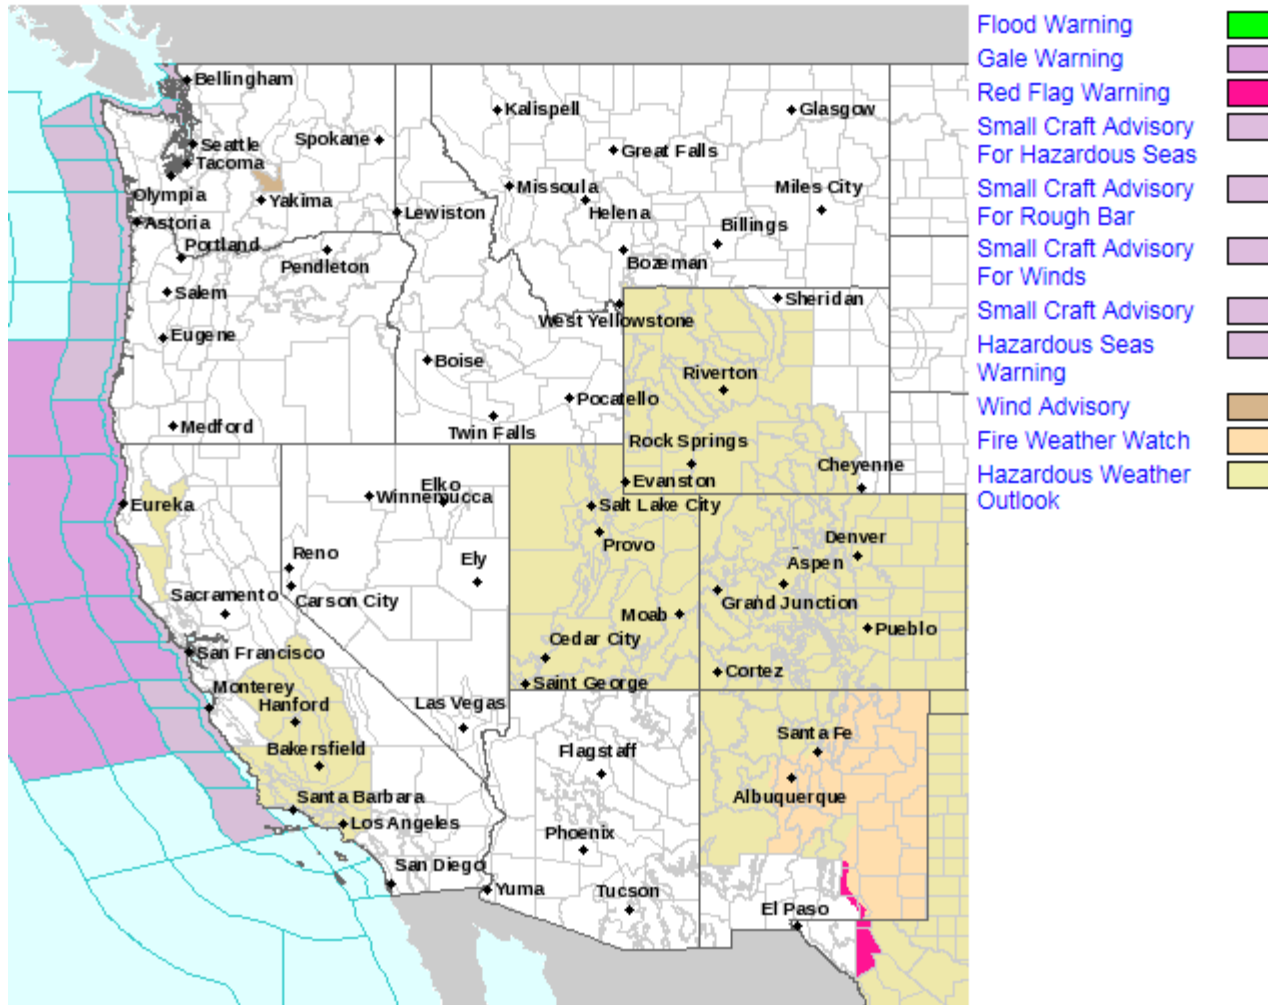

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Periods of clouds and cooler weather will persist for the remainder of the work week due to a succession of low pressure systems. Scattered showers are possible at times as well mainly in the mountains where isolated thunderstorms are expected along with gusty winds at times reaching across the deserts. It will be dry and warmer for next week as high pressure builds in across the Region.

Southeast California Weather:

A change in the weather pattern will take place over the next couple days as a large low pressure system moves into the region. A cooling trend will result in temperatures dropping to below normal values for Thursday and Friday while precipitation chances will expand across the desert southwest Thursday and Friday.

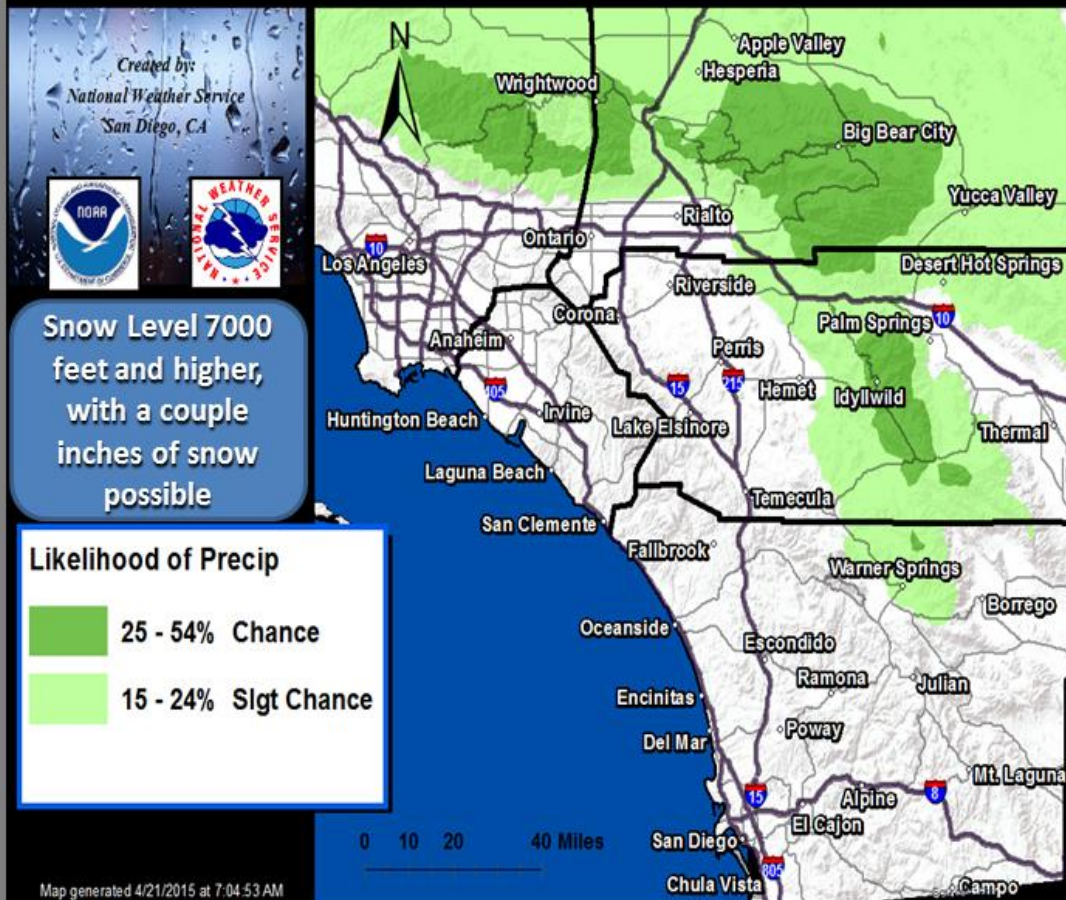

STATE WEATHER MAP

Last map update: Apr, 22nd 2015 at 10:38:32 am MDT

Unsettled Weather through Friday

Likelihood of Precipitation for This Afternoon Through This Evening

DETAILS

- Upper level disturbances will move through the region through Friday producing some showers and possible thunderstorms at times.
- **Locations:** Mainly over the Mountains and Deserts. Hit and miss showers elsewhere.
- **Timing:** Mainly during the afternoon and early evening hours each day.
- **Amounts:** Precip amounts light except underneath t-storms.

IMPACTS

- Lightning, gusty winds, small hail and localized minor flooding possible under any t-storms.

Three Things to Know

- ☀ Heavy downpours, lightning, small hail, and strong gusty winds near any storms that develop.
- ☀ Hikers, boaters, and others outdoors today take note and be prepared to seek shelter indoors if storms approach.
- ☀ Monitor radar, social media, and broadcasters for updates and alerts.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Two tree falling crews started today on removing, bucking, and chipping hazard trees from the private home sites. Confirmation sampling results received for three sites – all were below objectives. Confirmation samples were taken from five sites today. All septic tanks from completed sites have been emptied.
- Five crews worked on 5 home sites. Debris removal was completed at 3 home sites today. Air remedial and personnel monitoring activities continue in the work area and surrounding community.
- Debris removal completed at 461 Mountain View, 519 Willow, and 460 Rimrock.

Project Totals as Day 22:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
32	Debris removal completed.
31/12	Confirmation sampling completed/approved.
5	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 22:

Category	Total Tons
Debris and Ash Disposed	3,228
Soil Disposed	4,115
Metals Recycled	1,443
Concrete Recycled	3,245
Total All Categories	12,071

Estimated Daily Tonnage:

Category	Day 22
Debris/Ash	175
Soil Disposed	220
Metal Recycled	44
Concrete Recycled	343
Total	782

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

CSTI Exercise Division

CSTI's Exercise Division leads a statewide all-hazards Homeland Security Exercise and Evaluation Program (HSEEP) to assist California in preventing, protecting, mitigating, responding to, and recovering from man-made and natural disasters.

Train Derailment/Spill Exercise Series Plumas County

This exercise series builds awareness and understanding of the train derailment spill and response issues and capabilities in California. This first tabletop exercise will focus on a train derailment in the Feather River Canyon.

This tabletop exercise was designed for local, state, federal, and private stakeholders that would have a role in a derailment/spill in California.

This tabletop exercise is provided at no cost to attendees by the California Governor's Office of Emergency Services (Cal OES).

This tabletop exercise is being coordinated and conducted with our partners from California Fish and Wildlife, Plumas County, and Butte County.

Exercise Information

kevin.leisher@caloes.ca.gov

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
